Observations... From Around Town

(BY JAY WHOZIT)

With the Red Cross Fund Drive just about ended, and we feel confident the quota will have been met by the time the drive is officially closed, the accent now is on the Cancer Fund Drive, for which the Hancock County quota is the comparatively small amount of \$800.00. This drive's motto, "Give that others might live," can mean nothing unless we turn these mere words into deeds, by doing just what they imply.

Miss Jane Blair, daughter of Mr. and Mrs. C. D. Blair, will rule over the St. Joseph Academy May Festival on May 1st, while Miss George Ladner, daughter of Mr. and Mrs. Ed Ladner of Ansley, will reign over the 12th High School Festival on May 7th. Most Rev. Bishop Richard O. Gerow of Natchez, was on a recent visitor here two days this week, attending on Monday at the ceremonies for the consecration of the new marble altars at Our Lady of the Gulf Church and on Tuesday he administered the Sacrament of Confirmation to large classes of both white and colored churches here and at St. Clare's in Waveland. Just a reminder, Mr. Mayor, there are still quite a number of stray dogs running around the streets endangering the lives of adults and children alike. Lt. Gov. Sam Lumpkin said in Tupelo, this week, that forty-one percent of all the bills introduced in the 1948 Legislature had become law; he also said that "Mississippi is on the verge of the greatest prosperity ever known" the annual state band contest for high schools will be held in Jackson next Monday through Friday, with Saint Stanislaus and Bay High School being entered in class CC along with eighteen others. The L. & N. Train service which recently had been curtailed because of the coal shortage, as been restored to its former full schedule, which also puts the regular mail service back on regular schedule. Several months ago there were about twenty avowed candidates for the office of Mayor of our city in the coming July election, but so far only three have "officially" announced. What are you waiting for fellows? Come on out in the open, where we can see you. For Commissioner, only three have announced. Congratulations to Prof. Ingram on his election to the presidency of the Bay Rotary Club. What has happened to the real estate market here on the Gulf Coast? Property sales have been practically at a standstill for the past several months. Can this be the calm before the storm? We certainly hope so, because these booms help other businesses as well. Come May first there should be a reduction in the amount of income tax now being withheld from salaries of employees. Just how much this reduction will amount to remains to be seen but in any event it will help. Our hats are off to the town of Waveland—the rebuilding of their municipal pier is a certainty—the Mayor has secured all material from government surplus necessary to construct the pier and all that is needed is the necessary labor—a committee has been named to provide ways and means to secure the necessary funds for the costs of labor—and to this end the committee is giving a keno party at the Knock-Knock Club tonight to help in this cause—Peter Taranto, building contractor has volunteered his services and that of his crew for three days work on the pier free of charge—plans are under way for a volunteer fire department for the town—when a good water system and fire protection is had in Waveland it is going to the top—those folks have the spirit to do and they are hard to stop once started.

A meeting of the Citizens Rehabilitation Committee of Waveland, Lakeshore and Clermont Harbor was held at the Waveland Town Hall on Saturday night, April 16, 1948.

The officials of the Committee were present and several additional interested persons. Mr. James McConnell presided at the meeting and presented information he had obtained regarding the purchase of fire-fighting equipment to be bought from the committee's funds.

Following is the list of necessary supplies to insure adequate fire protection for the Waveland area: Two 600 gallon tanks, two pieces 2 1/2 inch suction hose, two Siamese water-gate couplings, 1 1/2 inch hose coupling one Fog Nozzle, one foam nozzle and pick-up two five-gallon cans Aero-Foam and one shut-off nozzle for water connections. All of this equipment is the most modern and effective that can be used, and will be purchased from Herbert S. Hiller Company in New Orleans at a total cost of \$854.00.

A motion was made and passed that the Waveland town authorities be empowered to use the engine—to open the culvert on the each and to instruct the operators in practice fire-drills. Also, the Waveland Town Council will meet to discuss and pass an ordinance to obtain the legal right to organize a volunteer fire department, and to protect the town against any lawsuits resulting in personal or property damage incidental to fire protection. Mayor Garfield Ladner volunteered to present that matter at the next Waveland Town Council meeting on the first Tuesday of the month.

The Citizens Rehabilitation Committee will meet again on Saturday, May 8th to proceed with the organization of the fire department and the further arrangements for truck on which to mount the 600 gallon tanks.

Mr. Lang's Statement to the voters follows:

TO THE VOTERS OF THE CITY OF BAY ST. LOUIS, MISSISSIPPI:

Please consider this as my official announcement as a candidate for the office of Mayor of the City of Bay St. Louis, Mississippi, in the coming election.

Respectfully yours,

GARDEN TOURS CONTINUE ON COAST

Sunday, April 18, opened the second of the Garden Tours sponsored by the Mississippi Gulf Coast Council of Garden Clubs, showing the Long Beach, Gulfport and Mississippi gardens. There was a large crowd out and tea was served to more than 400 people in the Garden of Mr. and Mrs. H. E. Hoke. Besides tea there was the riot of color in the Hoke garden, formerly the Dr. Dan Williams home, with more than 300 Camellia and Azalea bushes. In Long Beach were the Louis B. Lang Garden which had much to offer in the way of beauty and the Long Beach Municipal rose garden. In this garden will be found choice roses of rare varieties. This garden was planted by the Long Beach Garden Club in 1931.

On Second Street in Gulfport there were opened a group of small gardens which featured mostly roses. Among these was the garden of Mrs. J. H. Wright on Second street which had besides its roses a number of late blooming Azaleas with spring flowers in great profusion. One unusual attraction was the use of Maiden Hair Fern as a border. Mrs. Louise B. Martin's garden at 1013 Second Street was attractive mostly from a standpoint of landscaping. In Mississippi City Mrs. H. M.

CANDIDATE FOR MAYOR

WHAT I STAND FOR:

I would like to take this means of expressing my sincere gratitude to each one of you who has taken time to compliment me on my last article. Thank you folks. I certainly appreciate it.

For the amount of taxes we have paid into the City Treasury during the past fifteen years don't you think we are entitled to some badly needed improvements? We are constantly reminded that it takes money to make improvements. Yet after fifteen years of heavy taxation, there is still no money in the treasury. Where has this money gone? Honorable Mayor and Mr. Commissioners, would it be asking too much at these uncertain times for the Council to prepare and publish in this paper within the next three or four weeks a true and authentic financial statement of our City? I am positive that we all are vitally interested in knowing just where we stand.

Sincerely your independent candidate,

EARL RAMOND.

ORTTE THEATRE SUNDAY - MONDAY "IT HAD TO BE YOU"

Ginger Rogers and Cornel Wilde

On two scores alone, Columbia's "It Had to Be You," coming to the Ortte Theatre on Sunday and Monday, promises to be one of the memorable pictures of the year. It will be remembered, first, as the film that brought Ginger Rogers and Cornel Wilde together on the screen. Second, it will be hailed everywhere as the picture with the wonderful secret that provides such delightfully crazy fun.

It wouldn't be telling any tales out of school to serve advance notice on film audiences that they can expect a gay, romantic comedy that will convulse them with laughter and make their hearts beat a little faster. For, "It Had to Be You," has that welcome combination of tender romance and sly comedy that always ingratiates itself into the hearts of movie fans.

But that is not all that the first cheery tidings have brought! Lavish in the extreme, the Don Hartman production is reported to have excited the admiration of all who have seen it. The luxurious gowns and jewels that adorn Miss Rogers, the Fifth Avenue mansion, the reproduction of Grand Central Station and the romantic sequence filmed underwater are typical of the film's vast scale.

Miss Rogers has never displayed her comedy gifts to better advantage, reports ave it, as the beautiful socialite who can't quite cross the threshold of matrimony, although she tries four different times with four different millionaires in four brilliant ceremonies! Wilde is the lad who finally sweeps the reluctant Ginger off her feet, and does it quite literally, too, they say.

HOW SOUTHERN INDUSTRIES PUT NATURE'S RESOURCES TO USE FOR THE BENEFIT OF MANKIND

Cracking NUTS or OIL or ATOMS

You can't get to those tasty kernels until you crack the shell. That's the way it is with nuts... and with crude oil, too.

Nearly all natural resources must be gathered, processed and moved to market before they become of value. Crude oil, for example, is worth little under the ground. But it built a great industry in the South when it was produced and transported to places where it could be put to use.

The United Gas companies are helping to build another great industry from a natural resource—through the production, processing and transportation of natural gas. Under the ground, natural gas is a worthless and wasted resource. But it's a dependable, low-cost fuel for a thousand purposes when United moves it to market. This is practical conservation, for it stimulates industrial development, creates jobs and benefits all the families in the South.

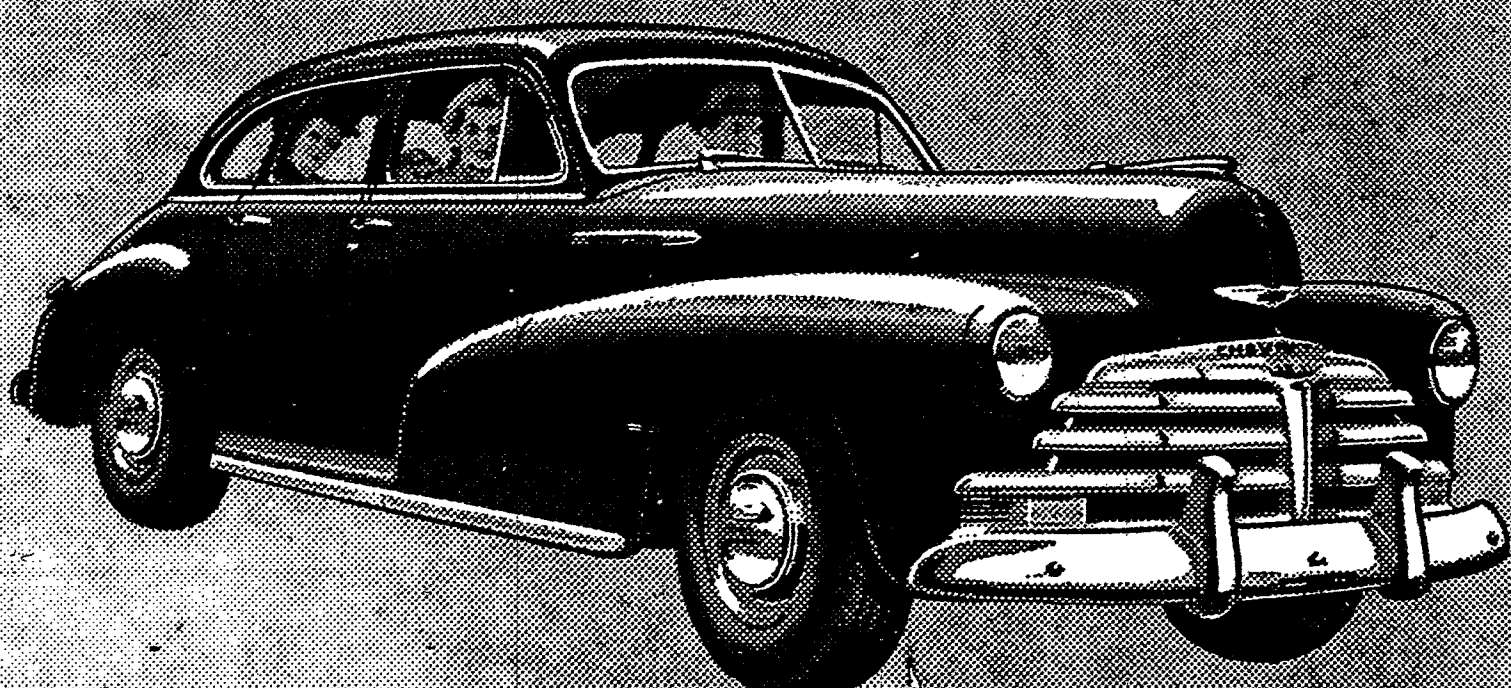

UNITED GAS

OIL REFINING

Privately-owned, business-managed refineries in the South meet the challenge of war-time production, and are meeting soaring post-war demands for all petroleum products. This is a classic example of Free Enterprise—providing thousands of jobs for Southern people, spending millions with local suppliers, paying scores of taxes for the support of state and local governments. The petroleum industry deserves your support for its important contribution to the economy of the South.

Serving the Gulf South

From its styling to its stamina...
from its road-action to its ride...

**CHEVROLET—and ONLY Chevrolet—
IS FIRST!**

Nowhere else beauty like this! New styling! New color! New upholstery fabric! All this added to the basic Big-Car luxury of Chevrolet's famous Body by Fisher. Remember—this body is exclusive to Chevrolet and higher-priced cars.

You'll enjoy much greater comfort in Chevrolet for 1948. It brings you the Big-Car riding-smoothness and roadsteadiness of the Unitized Knee-Action Gliding Ride. Another feature found only in Chevrolet and more expensive cars.

First in all-round quality in the entire low-price field!

How you and your family will enjoy ownership of this newer, smarter, finer Chevrolet for 1948! It brings you BIG-CAR QUALITY—not in one item only, but in every phase of styling, engineering and construction—and brings it to you AT LOWEST COST, as well. That is why more people drive Chevrolets, according to official nationwide registrations—and more people want Chevrolets, according to seven independent nationwide surveys—than any other make of car. That is why you, too, will agree that CHEVROLET AND ONLY CHEVROLET IS FIRST in all-round value!

Just as you'll find no equal for Chevrolet value, so you'll find no equal for Chevrolet service. Safeguard your transportation by bringing your present car to us for skilled service, now and at regular intervals, pending delivery of your new Chevrolet!

"From where I sit"
—by Joe Marsh

How To Tell You're Getting Old

Doc Walters gave me this formula: It's a sure-fire sign you're getting old when you resent other people having a good time.

And the Doc means it hasn't much to do with age. There are old folks in our town who get a big kick out of seeing other people enjoy themselves—seems to keep them young in spirit, with a twinkle in their eyes!

And there are some others who resent the young folks going fishing; who feel that community games and dances are just a waste of time; or who criticize temperate people for enjoying a mellow glass of beer with friends.

They're often well-intentioned folks, too. But from where I sit, the minute we criticize our neighbors for enjoying wholesome pleasures—like a game of horseshoes, a glass of beer, or an afternoon's fishing—it's a sure sign we're growing old (in spirit anyway) no matter what our age is.

ORTE THEATRE
WEDNESDAY - THURS.
"HIGH WALL"

There's a good reason for Robert Taylor's enthusiasm for his latest M-G-M starring vehicle, "High Wall," to show at the Orte Theatre.

He selected the story himself! After Taylor completed "Undercurrent" with Katherine Hepburn, he was listening to the radio one night when he heard the story of "High Wall" dramatized on the air. The following day, he recommended it to M-G-M as one he would like to do on the screen.

The studio investigated and discovered "High Wall" had been adapted for the radio show from a story and play by Alan R. Clark and Bradbury Foote. The story was purchased and while Taylor and his wife toured Europe, a screen play was written by Sydney Boehm and Lester Cole. By the time the star returned to Hollywood, Producer Robert Lord and Director Curtis Bernhardt were ready to start production of the picture.

Audrey Totter, last seen opposite Robert Montgomery in "Lady in the Lake," has the feminine lead opposite Taylor in the new suspense drama, with Herbert Marshall also featured. In the supporting cast are Dorothy Patrick, H. B. Warner, Warner Anderson, Morris Ankrum, Elizabeth Risdon and Vince Barnett.

guests of Mr. Wilson's parents, Mr. and Mrs. J. B. Wilson for the week end.

Mr. Walter Godechaux has leased the home of Dr. and Mrs. Alva P. Smith on the beach.

Dr. and Mrs. Robin have leased the cottage "Innesfree" for the summer.

The houses being built by Mrs. Guest on Waveland Avenue are nearing completion.

John Cahill is spending a few days with his mother, Mrs. Elmira Cahill in New Orleans.

Mrs. V. Graffino is rebuilding her home on the Beach.

Mr. Edward Chassanoil, Jr., is building a home on Waveland Avenue.

Mr. Francis T. Brown is building a cottage on First Street in Campbell's Subdivision.

The many friends of Captain and Mrs. A. S. (Jack) Wilson are glad to welcome them back to Waveland where they will spend a two and a half month vacation. Capt. Wilson is Harbormaster of the Port of Balboa. He had been acting as Harbormaster since the retirement of Captain Kenneth R. Gilkyson last May. He entered the Canal service on Sept. 9, 1941 as stevedore foreman in the receiving and forwarding agency. He was first assigned in Christobal but was transferred to the Atlantic side the following year and was made head stevedore foreman in Balboa.

Mr. and Mrs. Henry J. Angele spent the week end at their cottage in Waveland Park.

Mr. and Mrs. R. Darlene and family were over for the week end.

Mrs. Ducre Bougeois who underwent an operation at Kings Daughters Hospital is able to be home and is getting along nicely.

Congratulations to Mr. and Mrs. J. Schuman who are the proud parents of a fine baby girl. This is the Schuman's second daughter and also the second granddaughter of Mr. and Mrs. Raymond S. Nelson.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 3 days before "your time," it should help relieve pain due to poorly functioning periodic causes. Try it!

St. Stanislaus Band Participates In Pre-Contest Festival In Columbia

Last Friday, the St. Stanislaus Band went to Columbia, Miss., to participate in the Pre-Contest Festival which was sponsored by the Columbia High School Music Department under the direction of H. F. Lane, Director of the Columbia High School Band. This marked the third annual visit which the local band paid to the Columbians. The Stanislaus bus left the school grounds at 10:15 and reached Columbia at about 2:00 p. m. After an hour of relaxation, during which the band members reported to the restaurant for dinner, the students assembled at the grounds where the parade would start.

There were four bands which took part in the festival, the Columbia band, the Prentiss band the Monticello band and the Stanislaus band. The parade started at four o'clock and the bands were routed through the business district. A large crowd of onlookers crowded the sidewalks to hear the strains of martial music and to see the colorful array of uniforms.

After the parade the members of the four bands gathered in the "Rec" (recreation) hall where the ladies of the Columbia Band Auxiliary served an abundance of refreshments to the tired and "sweating" youngsters for the hot sun beat down on them the whole time of the parade. There were a variety of sandwiches in abundance, cold drinks and ice to appease the appetites and thirst of the hungry youngsters. Yet, it was all free and, believe it or not, there seemed to be no end to the capacity of some of the boys.

The contest program started at 7:30 in the school auditorium. The Stanislaus Band appeared first on the program. The first selection played was the "Spirit of Ole Miss," a march composed by Brother Romuald. Then followed the two contest selections, "Rustus Overture," and "Mountain Majesty Overture." Norman Carnovale thrilled the audience with the playing of the "In-

terlude," a clarinet solo which was accompanied by the band. The Saxophone quartet was also well received by the audience. All in all, it was an enjoyable trip and experience for every member of the Stanislaus Band. Brother Romuald and the members of his band extend congratulations to the Columbians for the invitation and treatment accorded them.

As has been stated the first two are used in Physical Therapy work at Veterans Hospital and the books are placed in the library for all to read. Bay St. Louis Dusted With DDT For Typhus Control

Dusting the business section of Bay St. Louis with DDT dust in typhus control work was completed Tuesday afternoon with one hundred and three establishments being covered.

L. A. Wood and H. H. Bond assigned to the Miss. State Board of Health by the U. S. Public Health Service, completed the program through cooperation with the Hancock County Health Department. In this work, the government and State Board of Health furnish transportation, supervision and insecticide while cities must furnish labor. Any city or town with a high rate of typhus fever can receive this service by furnishing labor and requesting the program.

In April of 1947 this program was inaugurated for this Area, and no cases of typhus have been reported since. Mr. Wood estimated from rat signs that Bay St. Louis has a considerably reduced rat population at present because of the very successful poisoning campaign of last September. The poisoning and dusting are a cooperative effort in Typhus control.

Mr. Wood stated that the dust used this week is definitely not a rat poison, but an insecticide that kills the rat flea.
